

Understanding Emotion in trading

You will learn :

1. How many types of emotion while you're trading
2. When will you have that feeling ?
3. Solution
4. Summary what you should do

1. How many types of emotion while you're trading

Fear

Greed

Hope

Anxiety

Boredom

Frustration

2. When will you have that feeling ?

Fear

When you have	What will you do?	Result	Solution
1. The trade turns against your forestcast.	Delaying to close the lose trade. (Even the big losses)	Lose money / Confident	Set orders & Forget Reducing lot size. Just look at pips value.
2. When lose trade come into win status	Close immediately with small win.	Small profit	
3. Lose many times & cann't findout the profitable strategy to learn	Trade demo account only	Reducing the feeling about risk management.	Finding the best course / mentor

2. When will you have that feeling ?

Greed

When you have	What will you do?	Result	Solution
1. You already took profit. Market continues going far	Re-entry at not good position to stoploss.	Lose money.	Set orders & Forget After 1 order closed, Don't trade immediately. Think about risk first. "Stoploss is a win deal."
2. Lose money	Double lot size & re-entry	Big losses.	

2. When will you have that feeling ?

Hope

When you have	What will you do?	Result	Solution
1. You lose 1 trade that you believe you must win.	Expand stoploss bigger & bigger	Lose money.	Set orders & Forget Never expand stoploss, just expand TP. Think about risk first. “Stoploss is a win deal.”
2. Lose money	Double lot size & re-entry	Big losses.	

2. When will you have that feeling ?

Anxiety

When you have	What will you do?	Result	Solution
1. When you opened a trade with big lot size.	Stoploss & Take profit too soon.	Lose big money / small profit.	Calculate the suitable lot size & practice.
2. Your trade have big profit than you think	Take profit immediately when market just have small pullback	Miss next movement	Trailing stop or “ Set & forget”

2. When will you have that feeling ?

Boredom

When you have	What will you do?	Result	Solution
1. Many small losed trades continuously.	Having wrong decision making.	Series of lose trade	Take a sleep or take a day/week off. Trading with demo account.

2. When will you have that feeling ?

Frustration

When you have	What will you do?	Result	Solution
1. You saw other friends have big profit While you just have small one.	Increasing lot size or change trading method.	Lose money & time	Believe your strategy & Improve.
2. Missed the trade	Break the rules to increase lot size to get more money to cover the missed trade	Lose the money	Forget it. Think about risk first.

Summary what you should do to control emotion

1. Finding the mentors and follow only one best method.
2. Calculate the suitable lot size with your balance and your mind -> Practice demo discipline with that lot size first.
3. Set & Forget. Only see the pips value of opened trade.
4. Think about risk first. “ Stoploss is a win trade & Congrat”.
5. Sleeping enough. When you're tired, Don't think about trading.
